

TOTAL SOCCER ACADEMY™

ACADEMY OBJECTIVES:

We are interested in developing and encouraging young players to make the right decisions in game situations. We emphasize the development of individual and team tactics, fitness, and psychological aspects of the game. Our techniques, when applied, create skillful players who perform well under pressure, having learned how to make the right decision at the right moment on the soccer field. We believe this is the key to the successful development of a soccer player. The Total Soccer Academy achieves these objectives through expert coaching provided by a select group of Dutch and American coaches.

EXPERIENCE THE “DUTCH VISION”

Come experience the “Dutch Vision” coaching philosophy developed by the Royal Netherlands Soccer Association (KNVB) 20 years ago. Learn for yourself why it is so effective in creating well-rounded players. In keeping with the “Dutch Vision”, players will learn soccer by playing the game of soccer and activities related to the game. The technical, tactical and conditional elements will not be separated from the overall game, nor practiced in an isolated manner. All practice sessions will evolve from the game in which a certain element is emphasized. To achieve these objectives, all Total Soccer Academy coaches train based on the “Dutch Vision” philosophy.

GOALKEEPERS

We have developed a special training curriculum for goalkeepers. Our goalkeepers receive instruction from goalkeeper coaches with both playing and coaching experience. You will have the opportunity to put your new skills to immediate use in the afternoon games.

TEAMS

We strongly encourage the participation of your entire team. If a team comes to camp with 14 or more players, we will not add any other players to your group. We will customize your instruction to team-related preparation and problem solving. This is an excellent opportunity for you to receive instruction as a full team and prepare for the upcoming fall season.

FINISHING CLINIC

All aspects of scoring on goal will be covered at this intense clinic. Enrollment is limited.
